ASSESSMENT TYPE

EQA Assessment

Review Team Composition

Dr. ABC Dr. ABC

Dr. XYZ Dr. XYZ

Section 1: Brief Description

Weight = 0.1

#	Criterion	Score
1	How clearly and accurately does the SAR articulate the institution's mission and ethos?	5 4 3 2 1
2	To what extent does the institution's mission align with national or institutional educational objectives?	5 4 3 2 1
3	How effectively has the SAR described recent major changes at the institutional or program level since the last self-assessment?	5 4 3 2 1
4	How comprehensively does the SAR identify the implications of recent changes for safeguarding academic standards and enhancing student learning opportunities?	5 4 3 2 1
5	To what extent does the SAR outline current challenges and strategic aims?	5 4 3 2 1
6	How effectively does the SAR describe strategies to maintain and enhance academic standards?	5 4 3 2 1
7	How clearly does the SAR identify external reference points (i.e., accreditation/professional bodies) beyond the Qualifications Framework?	5 4 3 2 1
8	To what extent does the SAR demonstrate the institution's engagement with these external reference points in maintaining quality and standards?	5 4 3 2 1

Section 2: The Track Record in Managing Quality and Standards

Weight = 0.1

#	Criterion	Score
1	How effectively does the SAR describe the institution's and programme team's background and experience in managing academic quality and standards?	5 4 3 2 1
2	To what extent does the SAR provide evidence of sustained commitment to quality assurance practices?	5 4 3 2 1
3	How clearly does the SAR present the outcomes of previous internal and external quality reviews?	5 4 3 2 1
4	To what extent does the SAR discuss the impact of these outcomes on the institution's current practices?	5 4 3 2 1
5	How comprehensively does the SAR address the institution's responses to recommendations from previous reviews?	5 4 3 2 1
6	Where recommendations were not fully implemented, how convincingly does the SAR justify the decisions made?	5 4 3 2 1
7	How effectively does the SAR describe the development and implementation of action plans arising from previous reviews?	5 4 3 2 1

Standard 1: Programme Mission, Objectives and Outcomes

Weight = 0.1

#	Criterion	Score
1	To what extent are the institution's mission statements documented?	5 4 3 2 1
2	To what extent have Programme Educational Objectives (PEOs) been stated?	5 4 3 2 1
3	To what extent does the SAR describe how each objective aligns with the institution's mission statements?	5 4 3 2 1
4	To what extent the SAR Outlines the main elements of the strategic plan to achieve the programme objectives	5 4 3 2 1
5	To what extent does the SAR describe how each objective was measured, when it was measured, and improvements identified and made	5 4 3 2 1

6	To what extent does the SAR describe how the programme outcomes support the programme objectives	5	4	3	2	1
7	How effectively does the SAR detail the assessment of graduates' achievement of program outcomes through feedback surveys and comprehensive reporting?	5	4	3	2	1
8	To what extent does the SAR summarize feedback surveys and show how their results are used for timely program improvements?	5	4	3	2	1
9	To what extent does the SAR describe the actions taken based on the results of periodic accreditation?	5	4	3	2	1
10	To what extent does the SAR describe major future programme improvement plans based on recent accreditation?	5	4	3	2	1
11	To what extent does the SAR list the strengths and weaknesses of the programme	5	4	3	2	1
12	To what extent does the SAR list significant future development plans for the programme?	5	4	3	2	1
13	How effectively does the SAR present three-year data on student enrolments, honors percentages, student-faculty ratio, average GPA per semester, average graduation time, and attrition rate?	5	4	3	2	1
14	To what extent are the employers strongly satisfied with the performance of the department's graduates indicated?	5	4	3	2	1
15	To what extent does the document indicate the median/average student evaluation for all modules and the percentage of faculty awarded excellence in teaching awards?	5	4	3	2	1
16	How effectively does the SAR present research performance measures, including publications, funded projects, conference papers per faculty per year, and research excellence award percentages?	5	4	3	2	1
17	How effectively does the document present performance measures for community services, including short courses, workshops, and seminars organized annually?	5	4	3	2	1
18	To what extent does the SAR indicate faculty and students' satisfaction regarding the administrative services offered by the department?	5	4	3	2	1
19	To what extent does the SAR describe actions taken to involve students in evaluating teaching and learning?	5	4	3	2	1

20	To what extent does the SAR describe actions taken due to student evaluation?	5	4	3	2	1
21	To what extent does the SAR describe how actions are communicated to students?	5	4	3	2	1
22	To what extent does the SAR describe actions taken to engage students in decision-making about the quality of their higher education?	5	4	3	2	1
23	To what extent does the SAR describe actions to recruit student members to appropriate deliberative committees?	5	4	3	2	1
24	To what extent does the SAR describe training given to students to enable their participation in decision-making committees?	5	4	3	2	1
25	To what extent are the Terms of Reference (TORs) of deliberative committees with student representation clearly defined?	5	4	3	2	1

Supporting/Indicative Evidence

- [ ] Programme specification clarifying programme missions, objectives and outcomes
- [ ] Academic development plan clarifying how to develop programme structure, curriculums, and resources
- [ ] Analysis reports of the process adopted for the development of the mission and subsequent goals and periodic reviews of the mission and goals
- [ ] Analysis reports of the process of application of these goals and coordination for implementation
- [ ] Review reports on processes for disseminating the mission and goals to faculty, students, and the governing body, and efforts to maintain institutional commitment

Standard 2: Curriculum Design and Organization

Weight = 0.1

#	Criterion	Score
1	To what extent the curriculum is consistent and supports the program's documented objectives?	5 4 3 2 1
2	To what extent are the theoretical background, problem analysis and solution stressed within the program's core material?	5 4 3 2 1
3	To what extent does the curriculum satisfy the core requirements for the programme, as specified by the respective accreditation body?	5 4 3 2 1
4	To what extent does the curriculum meet the program's major, general education, arts, professional, and other discipline requirements as specified by HEC and the respective accreditation bodies/councils?	5 4 3 2 1
5	To what extent are information technology components integrated throughout the curriculum?	5 4 3 2 1
6	To what extent are the students' oral and written communication skills developed and applied in the programme?	5 4 3 2 1
7	To what extent does the department conduct feedback surveys each semester for every course from students and faculty?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Programme development policy
- [ ] Evidence of well-defined and coherent programme goals and objectives reflecting institutional mission, such as module specifications
- [ ] Evidence of the balance between theory and practice to achieve programme and institutional goals
- [ ] Mapping of programme specifications to national qualifications framework for higher education
- [ ] Defined student learning outcomes
- [ ] Graduate destinations

Standard 3: Subject-Specific Facilities

Weight = 0.1

#	Criterion	Score
1	To what extent are laboratory manuals, documentation, and experiment instructions available and readily accessible to the department and students?	5 4 3 2 1
2	To what extent does the document describe the subject-specific facilities available for use in the program under assessment?	5 4 3 2 1
3	To what extent does the SAR explain that students and departments have adequate and timely access to manuals, documentation, and instructions?	5 4 3 2 1
4	To what extent are benchmarks with similar departments in reputable institutions used to identify laboratory shortcomings?	5 4 3 2 1
5	To what extent does the SAR describe the availability, level, and nature of personnel support for instruction and laboratory maintenance, with specific details for each laboratory?	5 4 3 2 1
6	To what extent does the SAR describe the adequacy of the institution's computing infrastructure and facilities in supporting the program's objectives, particularly the computing component?	5 4 3 2 1
7	To what extent does the SAR describe benchmarks with similar departments in reputable institutions to identify shortcomings in computing infrastructure and facilities?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Comprehensive analysis reports on subject-specific facilities accessible to students and other stakeholders
- [ ] Subject-specific facilities development procedure and plan
- [ ] Subject-specific facilities usage record
- [ ] Annual review reports on student involvement and satisfaction with the provided facilities, along with practicable recommendations for further improvement
- [ ] Student feedback on subject-specific facilities

Standard 4: Student Advising and Counselling

Weight = 0.1

#	Criterion	Score

1	To what extent are the modules offered with sufficient frequency and number to ensure students can complete the program on time, with adequate support and opportunities for interaction with instructors?	5	4	3	2	1
2	To what extent does the SAR describe the department's strategy for module offerings?	5	4	3	2	1
3	To what extent does the SAR explain the frequency of offering both required and elective modules?	5	4	3	2	1
4	To what extent are the required modules outside the department offered in sufficient numbers and frequency?	5	4	3	2	1
5	To what extent does the SAR describe how effective student-department interaction is achieved in modules taught by multiple instructors, such as department members, teaching assistants, or lecturers?	5	4	3	2	1
6	To what extent is guidance on 'how to complete the program' available to all students, and do they have access to academic advising for making module decisions and career choices?	5	4	3	2	1
7	To what extent does the SAR describe how students are informed about program requirements?	5	4	3	2	1
8	To what extent does the SAR describe the advising system and indicate how its effectiveness is measured?	5	4	3	2	1
9	To what extent does the SAR describe the student counselling system and indicate how students have access to professional counselling when needed?	5	4	3	2	1
10	To what extent does the SAR describe the opportunities available for students to interact with practitioners and gain membership in technical and professional societies?	5	4	3	2	1

Supporting/Indicative Evidence

- [ ] Comprehensive analysis reports of student support services accessible to students and other stakeholders
- [ ] Student support procedures and records
- [ ] Review reports of student involvement and satisfaction with the provided advising and counselling services
- [ ] Periodic assessment reports of advising and counselling services with practicable recommendations for further improvement
- [ ] Student feedback on advising and counselling services

Standard 5: Teaching Faculty/Staff

Weight = 0.1

#	Criterion	Score
1	To what extent does the program have sufficient full-time teaching staff to ensure adequate coverage, continuity, and stability across all program areas and modules?	5 4 3 2 1
2	To what extent do the interests, qualifications, and competence of all teaching staff (typically attained through graduate studies in the discipline) ensure their ability to teach, plan, modify, and update all modules and curricula?	5 4 3 2 1
3	To what extent is the information complete, presented in tables indicating program areas and the number of teaching staff in each area, and is the total teaching staff sufficient to deliver the program curriculum and objectives?	5 4 3 2 1
4	To what extent are the CVs of all teaching staff members presented?	5 4 3 2 1
5	To what extent are feedback surveys conducted each semester to evaluate teaching and assessment by students?	5 4 3 2 1
6	To what extent do the teaching staff remain current in the discipline, and is sufficient time provided for scholarly activities and professional development?	5 4 3 2 1
7	To what extent does the SAR describe the department-developed criteria for teaching staff to be considered current in discipline, and based on these criteria and CVs provided, what percentage of the teaching staff is current?	5 4 3 2 1
8	Describe the existing teaching staff development programs at departmental and institutional levels and demonstrate their effectiveness in achieving staff development.	5 4 3 2 1
9	Indicate how frequently faculty programs are evaluated and whether the evaluation results are used for improvement.	5 4 3 2 1
10	To what extent are programs and processes in place to motivate teaching staff and enhance job satisfaction, and how are their effectiveness assessed through staff motivation surveys?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Documented practices for faculty appointment, tenure, supervision, promotion, and evaluation at the institution and program level, covering regular/full-time, part-time, adjunct, and other faculty members
- [ ] Dissemination of evaluation criteria and procedures, review of teaching effectiveness reports, and analysis of faculty peer review reports for teaching and scholarship
- [ ] Records of productivity in scholarship of teaching and research in the creation of knowledge, consistent with the mission of the institution
- [ ] Analysis reports on the correlation between faculty profiles, their performance, and student learning outcomes

Standard 6: Institutional policies and process control

Weight = 0.1

#	Criterion	Score
1	To what extent is the process by which students are admitted to the program based on quantitative and qualitative criteria and clearly documented?	5 4 3 2 1
2	To what extent does the process by which students are registered in the program and their progress is monitored ensure timely completion, and is it clearly documented? (This process must be periodically evaluated to ensure it is meeting its objectives).	5 4 3 2 1
3	To what extent is the process of recruiting and retaining highly qualified department members in place and clearly documented?	5 4 3 2 1
4	To what extent are the processes and procedures for department evaluation and promotion consistent with the institution's mission statement? (These processes must be periodically evaluated to ensure they are meeting their objectives.)	5 4 3 2 1
5	To what extent are the processes and procedures used to ensure that teaching and delivery of module material emphasize active learning and that module learning outcomes are met? (The process must be periodically evaluated to ensure it is meeting its objectives.)	5 4 3 2 1
6	To what extent do the programs provide information for external audiences about the learning opportunities they offer that is fit for purpose, accessible, and trustworthy?	5 4 3 2 1
7	To what extent are the programs managed to high ethical standards when dealing with faculty, staff, students, and other stakeholders?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Marketing strategy; Admissions policy; Progression policy; Certification policy
- [ ] Evidence of support programs and services for students to improve the achievement of their educational goals and expected learning outcomes
- [ ] Periodic review reports on the information provided about financial aid programs, scholarships, and grants
- [ ] Evidence of the utilization of review reports on the financial aid component to further improve these and ensure effective public information sharing
- [ ] Evidence of the utilization of review report results to further improve policies related to admission, retention, persistence, and other areas
- [ ] Evidence of the utilization of attrition data and dropout analysis reports to investigate the reasons and improve the situation for these students
- [ ] Effective teaching and learning environments with appropriate resources, including the demonstration of electronic resources such as a virtual learning environment (VLE) to support teaching and learning
- [ ] Staff development programme and evidence of staff attendance
- [ ] Examples of scholarship activities that support teaching and learning
- [ ] Observation of teaching and learning procedure, results of observations and follow-up activities
- [ ] Programme and module handbooks
- [ ] Student support and tutorial procedures, along with associated records
- [ ] Student feedback on their learning experiences

Standard 7: Institutional Support and Facilities

Weight = 0.1

#	Criterion	Score
1	To what extent are sufficient support and financial resources to attract and retain high-quality teaching staff and provide the means to maintain competence as teachers and scholars?	5 4 3 2 1
2	Identify the extent to which there are an appropriate number of high-quality graduate students, research assistants, and PhD students.	5 4 3 2 1
3	To what extent are financial resources provided to acquire and maintain library holdings, laboratories, and computing facilities?	5 4 3 2 1
4	To what extent does the institution have the infrastructure to support new trends in learning, such as e-learning?	5 4 3 2 1
5	To what extent does the library possess an up-to-date technical collection relevant to the program, and is it adequately staffed with professional personnel?	5 4 3 2 1
6	To what extent are the classrooms adequately equipped to enable teaching staff to fulfill their responsibilities?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Comprehensive analysis reports of student support services, co-curricular, and extracurricular activities accessible to students and other stakeholders
- [ ] Mechanism for resolutions of student grievances and complaints
- [ ] Review reports on student involvement and satisfaction with the provided academic services
- [ ] Periodic assessment reports of student support and advising services, with practical recommendations for further improvement
- [ ] Review reports of program resources, fundraising and grant activities, and resource management
- [ ] Review of periodic reports on program planning, assessment, and budgeting
- [ ] Review reports of the work of various program committees dealing with resource acquisition, allocation, replacement, and related activities
- [ ] Review reports on resource availability, allocation, and their linkage with the planning cycle
- [ ] Review reports on the transparency of the system for all types of contracts and agreements regarding resource acquisition and sharing
- [ ] Review reports on endowment policies and procedures, if applicable

Standard 8: Institutional General Requirements

Weight = 0.1

#	Criterion	Score
1	To what extent does the institution ensure that research degrees are awarded in a research environment that upholds academic standards, international best practices, and addresses social and industrial needs?	5 4 3 2 1
2	To what extent does the environment provide students with quality opportunities and the necessary support to achieve successful academic, personal, and professional outcomes in their research degrees?	5 4 3 2 1
3	To what extent are full and part time postgraduate research programs offered only when students can meet the academic standards set by the institution, reflecting national expectations?	5 4 3 2 1
4	To what extent are the regulations clearly defined, accessible, and comprehensive, covering the progression of research students from admission to final examination and award?	5 4 3 2 1
5	To what extent are the regulations regularly reviewed at both the local and institutional levels?	5 4 3 2 1
6	To what extent does the research address regional, national, and international social and industrial needs?	5 4 3 2 1
7	To what extent does the institution offer research opportunities only in environments that provide adequate training and support for research?	5 4 3 2 1
8	To what extent does the institution ensure that all publicity materials for postgraduate research programs are clear, accurate, and provide sufficient detail to inform student choice?	5 4 3 2 1
9	To what extent are the admissions procedures clear and consistently applied?	5 4 3 2 1
10	To what extent does the institution ensure that only appropriately qualified research students are admitted to programs?	5 4 3 2 1
11	To what extent does the institution involve multiple staff members with relevant expertise in admissions decisions?	5 4 3 2 1
12	To what extent do the admissions procedures promote equality of opportunity?	5 4 3 2 1

13	To what extent are the entitlements and responsibilities of research students clearly defined and communicated?	5	4	3	2	1
14	To what extent does the institution provide research students with opportunities to understand the academic and social environment before commencing their studies?	5	4	3	2	1
15	To what extent does the institution assess the feasibility of full and part time students successfully completing their research projects?	5	4	3	2	1
16	To what extent does the institution provide research students with the sufficient training to develop the skills necessary for completing their programmes and preparing for their careers?	5	4	3	2	1
17	To what extent does the institution ensure that supervisors possess recognized subject expertise?	5	4	3	2	1
18	To what extent does the institution ensure that supervisors possess the necessary skills and experience to effectively monitor, support, and direct research students' work, providing them with sufficient support and direction to succeed in their studies?	5	4	3	2	1
19	To what extent does the institution ensure that research students' progress is consistently monitored and regularly communicated to them?	5	4	3	2	1
20	To what extent does the institution ensure that postgraduate research assessment processes are clearly communicated to students and supervisors, and are conducted rigorously, fairly, reliably, and consistently?	5	4	3	2	1
21	To what extent does the institution ensure mechanisms are in place for research students and supervisors to provide open and constructive feedback on the learning experience and support infrastructure?	5	4	3	2	1
22	To what extent does the institution ensure that complaints and appeals procedures are fair, transparent, and consistently applied, providing students with access to relevant information and an opportunity to present their case?	5	4	3	2	1
23	To what extent does the institution ensure that independent and formal procedures are in place to address complaints from research students regarding the quality of learning and support provision in a timely manner?	5	4	3	2	1
24	To what extent does the institution ensure that formal procedures exist to address academic appeals made	5	4	3	2	1

by post-graduate research students, with clearly defined acceptable grounds for appeals?

25	To what extent does the institution ensure that its responsibilities for the Precepts of research awards and the quality of education provided to research students are regularly reviewed?	5 4 3 2 1

Supporting/Indicative Evidence

- [ ] Institutional regulations
- [ ] Information on the key elements that define a successful community of academic staff and postgraduate students engaged in research
- [ ] Information on the quality of supervision provided, including the research skills of potential supervisors
- [ ] Information on the facilities and equipment available to research students
- [ ] Information on the provisions available to develop research and employment related skills
- [ ] Information on access to academic and welfare support services
- [ ] Information on opportunities for effective student representation
- [ ] Information on the implementation and monitoring mechanisms applied when a project is undertaken in collaboration with another organization
- [ ] Information on how to ensure the use of suitably experienced and trained staff in the selection process
- [ ] Information on how interviews with candidates are utilized in the admissions process, including arrangements for assessing candidates based overseas
- [ ] Information on alternative mechanisms for assessing qualifications and preparedness, where a prospective student lacks a first degree or taught postgraduate award, based on professional or work experience
- [ ] Information on the use of references and other sources to assess a candidate's suitability for postgraduate research, and whether the prospective student has or is likely to secure the necessary financial support for their studies.
- [ ] Information on how language proficiency is assured, particularly for programmes conducted in a language other than the candidate's native language, including the definition of minimum proficiency levels and the provision of in-house training if necessary
- [ ] Information on the balance of responsibilities between staff in local units and central postgraduate administration
- [ ] Information on how confidentiality is maintained throughout the admissions process
- [ ] Information about the institution and its postgraduate portfolio
- [ ] Information about common challenges research students may face during their studies and where they can seek guidance if difficulties arise
- [ ] Information about the institution's registration, enrolment, appeals and complaints procedures, assessment requirements, and research degree regulations
- [ ] Information about the facilities available to students, the institution's learning support infrastructure, and relevant health, safety, and welfare provisions, including legislative requirements
- [ ] Information about supervision arrangements, including evaluation, monitoring and review

- [ ] procedures
- [ ] Information about available skills training programmes, opportunities for developing scholarly competence and independence, and the support provided within postgraduate research programmes
- [ ] Information about opportunities for research students to meet with other students, faculty, and staff, as well as to share experiences and insights beyond their immediate study area
- [ ] Information about establishing a clear project proposal and objectives, and the relationship between research project approval by academic peers and the student's admission to the postgraduate programme
- [ ] Information about the skills, knowledge and aptitude required by student and supervisor for successful completion of the project
- [ ] Information about the resources (including staffing and facilities) needed to support the research project, arrangements for monitoring the continued availability of such resources, and support for monitoring students' progress during extended off-campus fieldwork or collaboration with organizations
- [ ] Information about how students are enabled to develop both analytical and research skills, including project design and methodologies, as well as general and employment-related skills such as interpersonal, teamworking, project management, information retrieval, presentation skills, career planning, and intellectual property rights management
- [ ] Information about how students are supported in developing language, academic writing skills, and training for those involved in teaching and demonstration activities
- [ ] Information about the training provided for supervisors, ongoing faculty/staff development, and the designated point of contact when a supervisory team is appointed
- [ ] Information about alternative arrangements where the supervisor(s) is unavailable to act for a temporary or extended period
- [ ] Information about arrangements in place to ensure that supervisors are not overloaded
- [ ] Information about frameworks for regular supervisor-research student interaction, including the minimum frequency of scheduled review meetings, the responsibility for initiating these meetings, and the involvement of other relevant individuals when appropriate
- [ ] Information about arrangements that facilitate students' introduction to other researchers, and relevant academic bodies and societies in their field
- [ ] Information about the available routes for research students and supervisors to seek independent advice if communication within the supervisory relationship breaks down
- [ ] Information about the support provided to supervisors when serious concerns regarding a student's ability or commitment to the study programme are identified
- [ ] Information about the nature and frequency of contact between the supervisor(s) and research student, as well as the adequacy of monitoring reports, including their production, agreement, institutional review mechanisms, and feedback arrangements
- [ ] Information about the mechanisms for advising research students if academic Precepts are not yet achieved or are unlikely to be achieved, as well as the provision of counselling and advisory services
- [ ] Information about the transfer arrangements between registration categories and the mechanisms for decisions regarding the suspension or termination of a research student's registration
- [ ] Information about the form and timing of the provision of postgraduate research assessment regulations to research students, faculty/staff, and external examiners, including any exceptions or additional requirements
- [ ] Information about the mechanisms for communicating deadlines for research project

- [ ] Information about the mechanisms for communicating deadlines for research project submissions
- [ ] Information about the mechanisms for communicating procedures related to examiner nomination, the examination process (including oral exams), decision timelines, and potential assessment outcomes
- [ ] Information about the mechanisms for identifying and maintaining the Precepts of research student achievement
- [ ] Information about procedures for appointing at least two examiners, including one external to the institution, ensuring they have the relevant qualifications, experience, and a clear understanding of the assessment task
- [ ] Sample document of comments provided by external examiners
- [ ] Information about the circumstances under which a student's supervisor may serve as an examiner, if applicable
- [ ] Information about how conflicts of interest are avoided between internal or external examiners and researchers with substantial direct involvement in the student's work or whose work is the focus of the research project
- [ ] Information about how students confirm that the material submitted for examination is their own work, has not been submitted for any other award, and, if applicable, how it relates to a group project
- [ ] Information about how assessment outcomes are communicated to the student and any sponsor, along with any subsequent procedures
- [ ] Information about the mechanisms used to collect and share feedback
- [ ] Information about student representation on institutional progress monitoring and decision-making bodies
- [ ] Information about the clarity, communication, and accessibility of appeals procedures, including how students can lodge an appeal and how decisions regarding appeal hearings are made to protect the rights of all parties
- [ ] Information about the composition of appeals panels, safeguards against conflicts of interest, record-keeping of hearings, and the communication of appeal outcomes to relevant parties
- [ ] Information on career progression pathways for full-time and, where applicable, part-time research students
- [ ] Extent to which institutional research training programmes align with the institution's established Precepts
- [ ] Feedback from research students, employers, sponsors, and other external funders
